

Keeping things simple.

The real estate **data eXchange** is an easy to use, yet powerful online service linking real estate agents and their clients with participating escrow companies to simplify the real estate closing process.

Real estate professionals use **redX** to process and review their transaction as it moves through the closing process and to provide state-of-the-art service to their clients, while saving valuable time during the closing process.

With **redX** real estate agents can:

- View the status of their transactions.
- Request an escrow to be opened with a participating escrow company.
- Provide a password to their clients to directly view the status of their escrow.
- Exchange messages with other parties to the transaction.
- Receive notification of important events during the closing process.
- Add/view file notes accessible to other parties to the transaction.
- Receive and upload documents.
- Maintain memos.
- Track tasks with the option to be viewable by all parties to the transaction.

Escrow companies, real estate agents, transaction coordinators and loan agents can *all* use the **redX** network to increase productivity while decreasing double-entry and reducing the number of phone calls. redX is available 24 hours a day, 7 days a week.
